## Georgia and Twiggs County Solar:

# Making the Difference with Clean Energy

## GA Solar 4

### LOCATION

Twiggs County, GA

### COMPLETION DATE

December 2019

### GEORGIA POWER

Offtaker

### FIRST SOLAR

Developer, EPC

### ORIGIS ENERGY USA

Financing, Operations & Maintenance

Construction of the 2,000-acre project will consist of more than half a million of First Solar's advanced technology thin film solar modules on single-axis tracker mounts. The largest infrastructure project in Twiggs County, this build will create up to 400 construction jobs and ongoing tax revenues.

#### PROJECT CAPACITY

261 MW<sub>p</sub> DC  
200 MW<sub>p</sub> AC

#### AVERAGE CARBON EMISSIONS SAVED OVER COAL

209,844 kgs
